Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 August 2005.
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-32 is/are pending in the application.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14-16 and 21-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Johnson [US 6,445,271].

Johnson discloses a micro-coils of an inductive component in planar substrates [figures 1A-2C] comprising:

- a substrate [11];
 - a plurality of conductive lines [17], each of which extends along a bottom surface of a trench [19] in the substrate, along opposing sidewalls of the trench, and along an upper surface of the substrate at both sides of the trench;
 - wide/conductive bonds interconnecting portions [16] connecting with the plurality of conductive lines forming a plurality of windings for the inductive component; and
 - a magnetic material in the trench as a core [20] for the inductive component
- [column 6, lines 61-64.]

Regarding claims 14-16, the claims method steps would necessitate by the apparatus.

Response to Arguments

Applicant's arguments filed 8/23/2005 have been fully considered but they are not persuasive.

Applicant argues that:

[1] Johnson fails to disclose a "wire bonding" technique; and

[2] Johnson do not include "wire bonds".

The examiner disagrees.

Regarding [1], as acknowledge by applicant, the "wire bonding" technique is a technique that involves forming an interconnection with a thin wire. Applicant had not claimed, nor had examiner considered, any structure of the thin wire. Applicant merely claim, in claim 21, a plurality of conductive lines. The final product of Johnson discloses the apparatus [induction device] of the claimed invention. The claimed method steps would necessitate by the apparatus, see above.

Regarding [2], Johnson discloses the bonding structure [14, 15 of figure 3] between the conductive lines.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 2832

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
